

MUNGBEAN

BEST MANAGEMENT PRACTICE TRAINING COURSE

- ✓ Rotational benefits & profitability
- ✓ Plant physiology
- ✓ Variety selection
- ✓ General agronomy
- ✓ Weed management
- ✓ Disease management
- ✓ Insect management
- ✓ Desiccation, harvest & storage
- ✓ Marketing, end uses & standards
- ✓ Chemical application

This two day course is designed to provide farmers, agronomists and advisors with technical knowledge and practical skills to achieve more reliable and profitable mungbean production. Expert presenters will provide the science and reasoning behind Best Management Practice and an update on the latest research and advancements in the mungbean industry.

A comprehensive manual is provided to participants.

Once accredited, participant names will be added to the AMA's Accredited Agronomist list.
